<b>Contributors</b> .....	VII
<b>Introduction</b>	
( <i>V. Strnad, O. J. Ott</i> ) .....	1
<b>Patterns of care for breast brachytherapy in Europe</b>	
( <i>F. Guedea, M. Ventura, A. Polo</i> ) .....	3
<b>Partial breast irradiation with multi-catheter brachytherapy: how hazardous is it?</b>	
( <i>O. J. Ott</i> ) .....	7
<b>Patient selection criteria and pathological considerations</b>	
( <i>E. Van Limbergen, R. Holland</i> ) .....	15
<b>Target volume definition</b>	
Pre-brachytherapy imaging procedures	
( <i>R. Schulz-Wendtland</i> ) .....	29
Target volume definition after closed-cavity surgery: clinical considerations	
( <i>V. Strnad, D. Kauer-Dorner</i> ) .....	33
Target volume definition after open-cavity surgery: clinical considerations	
( <i>C. Polgár, T. Major</i> ) .....	47
<b>Implant techniques</b>	
Anaesthesia and patient care	
( <i>A. R. Seeger, P. Niehoff</i> ) .....	53
Clip-based implant technique using an Integrated Brachytherapy Unit (IBU)	
( <i>V. Strnad</i> ) .....	59
CT-based implant technique after closed-cavity surgery	
( <i>G. Hildebrandt</i> ) .....	63
CT-based implant technique after open-cavity surgery: European policy	
( <i>C. Polgár, T. Major</i> ) .....	71
CT-based implant technique after open-cavity surgery: American policy	
( <i>D. W. Arthur, F. A. Vicini</i> ) .....	77
Ultrasound-based implant technique	
( <i>A. Polo, F. Guedea</i> ) .....	83

<b>Physical aspects: dosimetry, planning, and documentation</b>	
( <i>T. Major, M. Lotter</i> ) .....	91
<b>Biological aspects: total dose and fractionation</b>	
( <i>W. Harms, K. J. Weber</i> ) .....	107
<b>Normal-tissue constraints</b>	
( <i>E. Van Limbergen, O. J. Ott, V. Strnad</i> ) .....	115
<b>Clinical results</b>	
Clinical results: European experience	
( <i>C. Polgár</i> ) .....	125
Clinical results: American experience	
( <i>D. W. Arthur, F. A. Vicini</i> ) .....	133
Current randomised trials	
( <i>O. J. Ott</i> ) .....	139
<b>Summary</b>	
( <i>V. Strnad, O. J. Ott</i> ) .....	149
<b>Index</b> .....	151
